ABOUT ME

My name is Manjusha ,I'm a beginner artist in California. After my teaching job, the next thing I enjoy is doing art.I like playing with color and incorporating other art styles in my Lippan art projects. I have blended Pichwai, Warli and Mandala with Lippan so far. My goal is to preserve the ancient Indian art and pass it to the next generation. As a passionate and motivated professional, I'm constantly striving to improve my techniques, expand my skillset and find new opportunities to grow. Each of my projects - have provided this growth and allowed me to establish myself within this competitive industry.

Here I bridge the gap between modern design and traditional art. . Unique pieces are handcrafted using the centuries-old Lippan art technique, which originated in the Kutch region of India. I use clay, paint and mirrors to create one of a kind pieces that are sure to make a statement in any space.Each piece is made with love and care here in the US. Lippan Wall Art have mirrors which are a great way to add a unique, handmade touch to any room.

CURRENT WORK EXPERIENCE

Sonder Creek Academy, Walnut Creek

Math, Science and STEM teacher
